Below are Swedish recommendations:

All screws in wet zone 1 must be fixed to solid structures, such as concrete, studs or special structural components. Screws in wet zone 1 must not be fixed to flooring or wall sheets alone. Requirements for sealing apply in wet zones 1 and 2. Sealing materials must be fixed to the underlying layer and must be waterproof, mould-resistant and age-resistant.

Denna produkt är anpassad till Branschregler Säker Vatteninstallation. Hafa garanterar produktens funktion om branschreglerna och monteringsanvisningarna följs.

Ett auktoriserat VVS-företag är garanti för att installationen utförs fackmässigt.
